TA-8830D | MediaHub™ SL+ Desktop

Low-profile, auto-switching, multi-cable connectivity panel allows guests to connect their portable electronic devices to the in-room flat screen TV or sound system. Guests use MediaHub to play their own movies, music, games, and even business presentations on the in-room TV.

- Low-profile design provides same auto-switching A/V connectivity of MediaHub in a smaller footprint.
- Truly plug-and-play, automatically senses connected content and switches TV to the correct input. Automatically senses disconnect and switches TV back to regular programming.
- Compatible with hospitality's most popular TV brands and VOD/PPV systems.
- Supports wide range of portable devices such as laptops, tablets, game consoles, smart phones, DVD/Blu-ray and much more.
- Includes high-current USB charging port that fast-charges a wide range of portable devices, including iPads®.
- Simple to install, place on desk or nightstand. Three meter cables attached and sheathed on both ends included. Security clamps available (sold separately).
- iPod-friendly, use standard iPod AV cable or combine with TeleAdapt iDock™ (sold separately).
- Affordable and scalable to fit any budget. Scale down to a passive version or scale up to model that includes iPod docking.
- Can be deployed worldwide.

TA-8830D | MediaHub™ SL+ Desktop

Guest-Facing AV Inputs

- A** Composite Audio/Video
- B** Mini Stereo Jack
- C** VGA (RGB)
- D** HDMI
- E** USB Charging Socket (2a)

Dimensions

7" W x 1.16" H x 1.9" D
(178mm x 29.4mm x 47.8mm)

Requirements

Requires these ports on the TV:

- 3RCA Composite AV (Video 1)
- VGA (PC Video)
- Paired PC audio
- HDMI
- Control Port (on TV or STB, can be RS232, RJP, or GAME/DATA)
